

Case Study

A Specialized Recruitment and Staffing Firm

Client Overview:

The Client is a Technologically aware Recruitment Solutions provider with a team size of around 50 members.

Business Need:

The Client is a fast-growing recruitment firm with a strong focus on recruitment processes and turnaround times. The key to their success is their ability to source rapidly from diverse sources and deliver strong matching candidates to their customers.

The Client wanted the following:

- Allow its Recruitment teams to source candidates from Multiple sources simultaneously
- To deal effectively with a rapidly changing and competitive market for candidates, the Client wanted the ability to reach out to a large volume of candidates, manage communication tracks and large volumes of candidate information and data

Solution:

Wisestep' s solution created:

- A unique opportunity for the Client to accelerate the speed of its sourcing and matching
- The capacity to deal with and record candidate and communication-related data

Customer Testimonial - *“Wisestep has made finding Candidates for our Open jobs super simple. Their native Job Board integrations allow all my team members to work on Job boards at the same time saving us on additional License costs. We post jobs to the platform and everything else is taken care of on the platform itself in simple clicks”*

About Us - Transform your recruitment process with [Wisestep.com](https://www.wisestep.com)

Benefits:

Wisestep's solution for the Client enabled it to realize the following benefits:

TRANSFORMING RECRUITMENT OPERATIONS MADE EASY

- Native Job Board Integration:** Wisestep's native job board integration with popular Job boards allows recruiters to source candidates from Job boards within the Wisestep platform, allowing all team members to work simultaneously and view the already viewed CVs that are automatically saved to the platform. This leads to rapid sourcing and reduces turn-around time
- Building candidate database effortlessly:** With its Browse extension Wisestep syncs with major job-boards like Monster Jobs, Dice and creates a massive candidate database quickly. This has helped the Client accelerate the creation of a large candidate pool with significant reusability
- Recruitment automation:** Whether its sending emails to Candidates and logging all conversations for future use or distributing jobs to many different job boards and social media, Wisestep drives automation and productivity effortlessly in a user-friendly way
- Streamlining recruitment operations** for the team to enable productivity gains for the organization by using its Industry leading Analytics with over 70 + Visualisations to track operations seamlessly
